Description and Pedigree.

Eurral is a genuine Morgan horse, was bred in Vermont, and sired by the old Green Mountain Morgan, who has taken premiums at six State fairs, and also at the Southwestern Association at Louisville, beating Drennon, and many other of the best stall-ions in Kentucky. He was sired by the old Gifford Morgan, and he by the original Justin Morgan. His dam was also by Gifford Morgan, and her dam by imported Cock of the Walk, a thorough-bred horse; so that he is descended through three crosses direct from the original Morgan horse. He is a rich mahogany chestmut, with a changeable silk coat, without white; stands on feet and legs such as few thorough breds can boast; small bony head, with short ears well set

Amiable, mild and kind-hearted, she had endeared herself to many friends and was beloved by all who knew her. A devoted daughter, an affectionate sister, and an agreeable companion, she leaves a wide space in the circle of her friends. The subject of this notice, like many of the most useful men of this age, was repred without the advantages of more than a home education. He entered the clerk's office of the County Court of Franklin, under that veteran Clerk, A. H. RENNICK, when a mere boy. Here commenced the training, which was continued for some years in the Circuit Court clerk's office of the some county that not only made clerk's office of the same county, that not only made him a proficient clerk, but one of the best practical lawyers of the State. With a large practice as a lawlawyers of the State. With a large practice as a lawyer, he also filled for many years the post of assistant clerk of the Legislature, performing his duties to the satisfaction of all. He was emphatically a working man; and many of the young men now holding clerk ships, will remember the aid and instruction he gave them, in fitting them for their responsible posts. I Yearn for the Spring. I yearn for the Spring, when the birds shall sing And each morning awake fresh flowers; We have waited long for the lark's blithe song. And the lengthening evening hours.

A shroud of snow had lain on the earth, A shroug of snow had tain on the earth.

An icy hand on each stream.

The sun in the sky opened its languid eye.

And sent but a sickly gleam!

And the frosty breeze moaned among the trees,

And the rattling hail and rain

And the rattling hail and rain
Came sweeping past, with an angry blast,
And dashed against the window pain;
And never a flower, in that stormy hour,
Dared to raise up its tiny head—
For the gentle things fled on Summer's wings;
Or else in the snow lay dead!

I yearn for the Spring when the birds shall sing. And each morn shall awake new flowers; We have listened long for the woodlark's song, And the thrush at the evening hours.

The a beauteous thing when the bud first bursts,
And child-like the young leaf stands,
And eaches the drops of the gentle shower

CONSUMPTION UCCESSFULLY TREATED BY INHALA-TION OF MEDICATED VAPORS, by Joan Son Stewart Rose, M. In this age of progress, Medical Science has contributed her full share to the general welfare, and hat which shines resplendent the

The treatment hitherto pursued has been faulty and wofully inefficient; the atomach is made the receptacle of nauseous compounds, oils, and a host of other nostrums, all these too being expected to act on the lungs; the failure to eradicate, or even stop the ravages of the disease, in nearly every case of well developed Consumption, is surely warning enough to the Consumptive to thun such treatment. The disease is not in the Stomach but in the Langs; common sense then will teach you, that medicine applied in the form of vapor, directly to the diseased surface of the lungs, will be far more effectual than medicines taken into the stomach. The success of Medicated Vapor Inhalation in the treatment of diseases of the Lungs, exceeds my most sanguine expectations—and I carnestly appeal to the intelligence of all afflicted, or who have the germs of the disease within them, to embrace at once the soothing, healing, and successful system of Inhalation as the only ark of refuge for the Consumptive. I offer to place it within the reach of all. And can so arrange it, that the invalid is never required to leave home, where the hands of friendship and affection, tend so much to aid the physician's efforts. I claim for Inhalation, a place among the gifts that Nature and Art hath given us, "that our days may be long in the land." a method not only rational, but simple, safe, and efficacious.

I have pleasure in referring to 207 names, residents of New York and neighborhood, who have been restored to vigorous health. About one-third of the above numbers, according to the patients' own statements, were considered hopeless cases.

Our convictions are based upon having several of our convictions are based upon having several of our own patients, confirmed consumptives, restored to vigorous health, after a few months treatment by Dr. Rose. In the above named diseases the application of "Medicated Vapors," inhaled directly into the Lungs, may be justly considered a great boon to suffering humanity, rendering Consumption a perfectly curable disease!
